

Morocco is a beautiful country, rich in culture and heritage. I have enjoyed visiting interesting places in Morocco and I have yet to visit a place that I didn't like or have an interesting history behind it. Moroccan people are a warm and friendly people.

Ecole Montessori is a school that makes following the AMI principles and Maria Montessori's philosophy its number one priority. The classrooms are furnished with authentic Montessori materials in keeping with AMI standards. The needs of the children and how best to meet these is another of EMC's priority.

My name is Banke Faloye and it's been almost 5 years since I began working at Ecole Montessori Casablanca. I must say that my experience here at the school has been a good one. It's not often that one gets the opportunity to work in a place where you are not only being supported with regards to your work and it being appreciated but they also make sure that your emotional and physical wellbeing is looked after as well. Because EMC cares about the children and their learning, this makes working with children at the school enjoyable because we have these same goals in common.

I have worked in the Primary environment in EMC and now in the Elementary, and am quite happy to say that the parent community here is very supportive. I have enjoyed collaborating with them just so that their children can be provided with the best education that can be offered.

The children? I can't forget to mention them. They have always been a joy to be around and continue to be so!
